

Napa Valley Bridal Makeup and [Let's Face It Aesthetic Services](#)

Roxanna's Background & Methodology

In 1988, Roxanna began her professional work as a make up artist for a modeling agency in Sacramento and San Jose, for upcoming models, actresses, and young women involved with pageants. She did this on and off as needed for several years until she met her husband and moved to the Napa Valley. After finishing a wine country career, she began once again to freelance her make up services, and realized that she wanted to become an Esthetician and pursued her aesthetics license. By 1998 she received her aesthetics license at the top of her class from [Paris Beauty College](#) in Northern California.

Roxanna, while applying makeup is using a Westmore/Noreen Young philosophy, she is [Physiodermie Certified](#), [Westmore](#) philosophy trained, [Sothys](#) Certification, Y.N.C. Certification, [ColoreScience](#) Certification, [Noreen Young](#) trained, as well as, [John Casablancas](#) Major Modeling and Make up Certification. She worked at the [Spa at Silverado](#) in Napa Valley as one of their top Estheticians and most popular make up artists. She opened her own [Aesthetics studio in downtown St. Helena, CA](#) where you can find her now. Although there are several makeup artists in Napa Valley, Roxanna has the breadth of experience. professional service and superior product not often matched! Consider the following:

- Roxanna is the consummate professional, never “double dipping” any item - disposable or not - into any make up. For example, she always applies mascara with a one time applicator and applies more with a new one. Your health is just as important to her as your wedding day is to you.
- Did you know that professional photography will take about 1/3 of your make up away? Many brides request a “natural look”, however you still need to have enough make up on to compensate for this. Not to mention whether or not your ceremony or reception is inside or out, what time of year, what time of day, etc. All of this will affect your photos and having proper makeup application will help to make you look amazing in any light on your wedding day in Napa Valley!
- Roxanna wants to completely understand what you want for your wedding pictures and communicate with you from the beginning. This way you can get ready for your big day full of confidence that you will look amazing on your wedding day and that your pictures will reflect that for years to come.
- [Let's Face It Aesthetic Services](#) is a member of the [St. Helena's Chamber of Commerce](#).

Let's Face It Aesthetic Services has a fully booked schedule due to customer loyalty and superior quality service in Napa Valley.
