

# Shiny, happy, funky people ...

"You guys are awesome! It's hard to explain what a great part of the wedding you provided. You MADE the reception. Our friends and family can't stop talking about how much fun you were."

-- *Thomas & Robyn Savage*

"One thing we were sure of was the power and spirit of the band throughout the entire evening. They were calm and professional, and they played all our pre-requests while staying aware of the schedule and keeping things moving right along. Of course their music itself was awesome, and Bhakti and Lauren worked the crowd with charm. The thing that blew us away the most, though, was the positive energy and dedication the whole band showed to go above the norm. They did all this with style, grace, and a playful enthusiasm that really brought everyone together for a truly happy and meaningful event."

-- *Jeff and Susan Lum*
