

Sidepocket Band

Sidepocket is one of the premier wedding bands in Northern California, playing more than 40 weddings a year. That's because we love what we do, making your day unforgettable!

Dance Sets

Our seven-piece band is superb at playing high-energy dance sets featuring songs from the 50s, 60s, 70s, 80s, and beyond.

Dinner Sets

Our world-class musicians (check out the band bios!) also play beautiful, quiet, background dinner music featuring jazz and swing standards.

No-Stress Wedding Day!

Let's face it; planning a wedding will cause anyone a little anxiety. We make sure that from the moment you walk into your reception, you can relax and have fun. We talk with you, your caterer, and your event planner many times before your reception so that we know just when to make announcements, get microphones ready for toasts, change musical moods, and keep the dance floor full!

Emcee

We emcee the event for you, making sure all your special dance requests, bouquet tossing, cake cutting, and speeches are announced in the right way at the perfect time.

Huge Song Selection

We work with you to find out what you and your crowd would love to hear. Special requests are always recommended. Sidepocket will read the crowd to make sure your guests keep dancing.

Short Break Times, Long Dance Sets

We make sure we plan our breaks around what's happening at your reception. And once we get your guests dancing, we don't stop until we have to!

Two Lead Vocalists

Pamela Rose and Glenn Walters, both recording artists under their own names, sing an incredibly wide range of materials and styles.

Ceremony Music and Extras

Our pianist can play light classical music for your ceremony. Sax or flute can be added & other combos are available. We also have small combos for cocktail receptions.

"Sidepocket read the crowd perfectly all night long! Everyone had a blast!"

"Incredibly helpful and accommodating - and we danced all night!"
