Thank you for all of your help and expertise in selecting a band for our grand opening party. When I said that I was leaving it all up to you I really meant it, and you came through with flying colors! The band was more than I could have hoped for. They played a major role in the overwhelming success of the party. As I stated to you on the phone, I gave out your name to many people as they were leaving or when they called to inquire about the group. I hope it leads to some terrific referrals in the future I will be extremely happy to recommend Napata and the New Moon Band as well as Notable Talent!

I am writing on behalf of the Tesseract User Group Board of Directors to let you know that our recent annual conference was very successful. I admit that some of the Tesseract User Group Board members had doubts that last year's theme party which you produced could be topped, but those doubts were quickly put to rest when we entered the ballroom prior to the dinner. The

backdrops where simply wonderful. The impersonator was a great success and that the guests greatly enjoyed the band was attested to by the large number of those who danced and danced and danced. We look forward to working with Notable Talent at our conference next year in San Francisco. I am certain that we will receive the same fine service, uniqueness and attention to detail that has hallmark these past two conferences.

I just wanted to let you know that I really enjoyed working with you during the past few weeks;. I appreciate the amount of time you spent to locate a band I would be thrilled about, as well as your willingness to work with us on those pesky rider details. I cannot tell you how much easier you made my job here. I didn't expect to receive such service when I telephoned New George's for information about Tommy Castro! Thank you. I will be pleased to pass along your name as a recommendation to others when they begin to plan future events. While not all of our parties are catered, they always include live music. Most of the people who plan wrap parties, etc., usually do the job one time so working with someone as knowledgeable and proficient as you would be a benefit to all concerned.
