

# White Robed Monks of St. Benedict

## **Testimonials...**

Our officiant was wonderful...his service was so personal, it was my favorite wedding service ever and the best thing was it was my own!!

The ceremony was better than I ever imagined. (Our priest) was the perfect mix of serious, sincere, warm, funny and professional. Many, many people commented that they enjoyed our wedding ceremony more than any they had been to. We laughed, we cried, it was just perfect. (And we're still married, so that's a good thing too.!) : )

We knew (our priest) was going to be great, but we had no idea just how perfect everything would turn out. He put in the extra effort to make sure all of our needs, and our guests needs, were met. He was amazing to work with, and when we renew our vows in ten years we will be inviting him back!

(Our priest) did a wonderful job with our ceremony. We met him prior to the wedding and found him to be a genuine, kind-spirited person. We were so blessed to have someone so wonderful officiate our wedding. He listened to our ideas and offered suggestions of his own (all of which ended up being perfect). He calmed our anxiety with his gentle humor and he made our wedding flow smoothly. Best of all, he touched our hearts and will be remembered as an integral part of our special day forever.

(Our priest) was very sensitive to our needs. He was supportive and available. My husband and I had never been married before or even been in a wedding, and he made us feel so at ease. He guided us through with grace, charm and warmth. We never worried about what to do next, as he was always there for guidance. wanted one so...

(Our priest) was attentive and supportive. When he said to call him at anytime for anything we were never made to feel we'd be imposing. He even offered his presence and guidance afterwards, if we were to need anything or run anything past him in regards to our relationship, new marriage, spirituality...It's always nice and comforting to have such an outlet.
