"We just wanted to let you know how much we loved our ceremony. It was exactly what we wanted. Our families and friends told you, but we wanted to again tell you how much they loved the ceremony, too. My sister is renewing her vows and wants you to do the ceremony."

"We got the ceremony we always wanted. Thank you again for all the suggestions and the support."

Thank you! It's a year later and we still talk about our wedding ceremony. We loved being in Napa and your hospitality really made us feel right at home. You went out of your way and we really appreciate what you did for us. Again, thanks!

Thank you so much for the wonderful job you did at our wedding, both during the ceremony and before...when Don came back from his jungle safari search for the lost ring! You know, when you dabbed his perspiring forehead and asked why he was gargling a urine sample (it really was Listerine, at least I think it was). I hope you enjoy the attached photos and thanks again for helping make our day special!
